

BLACKHAWK!

HONOR. AS A WAY OF LIFE.

Founded in 1993 by a U.S. Navy SEAL, BLACKHAWK!® has been leading the charge in the tactical industry, producing durable, high-quality gear for the military, law enforcement, corporate security, shooting sports, and first responder markets. What started as a small operation in a garage has transformed into an enterprise that is now widely recognized as the ops gear of choice for Special Operation units worldwide. At BLACKHAWK!, excellence isn't just an aspiration—it's a way of life.

SPECIAL OPERATIONS DIVISION (SOD)

"Our mission is to educate consumers, promote the BLACKHAWK! brand, demonstrate all Security and Sporting products globally, and identify market trends, threats, and emerging opportunities to better support our customers."

With over 240 years of combined experience in conventional military, special operations, and law enforcement, the Special Operations Division (SOD) is dedicated to serving customers through product education and hands-on training.

This highly qualified and diversified team of experts gives special operation forces, law enforcement professionals, government agencies, industrial security, outdoor enthusiasts, distributors, and dealers the tools necessary to utilize SSG products in the most effective ways possible.

ORDERING FROM BLACKHAWK!®

ONLINE

Visit us at www.BLACKHAWK.com

CALL/FAX

Customer Service 757.436.3101 or 800.694.5263

Order desk hours are 8:30 a.m. to 5:00 p.m. Monday through Friday EST
24 hour fax line 888.830.2013 or 757.436.3088

I.T.S.™ (INTEGRATED TOURNIQUET SYSTEM) – UP TO 8 BUILT-IN TOURNIQUETS

WHAT IS I.T.S.? The rules have changed. With the advent of body armor, the most common cause of preventable deaths in the tactical environment can be attributed to rapid loss of blood due to extremity wounds. A major-artery wound can cause the victim to become unconscious within two minutes, bleed out, and expire minutes later. If life-saving devices like pressure cuffs or tourniquets are available, the question then becomes,

“How do I locate and apply them quickly to myself or team members in these critical few seconds?”

THE BENEFITS OF I.T.S.

- Up to four tourniquets built into each garment
- Tourniquets always present
- Single-handed operation
- Flip/pull/twist activation
- Safe and secure lockdown
- Activation complete in seconds
- Complete occlusion of blood
- Ability to train to build muscle memory
- Combined weight is less than one traditional tourniquet
- Useful in training scenarios

I.T.S. offers tourniquets on the proximal (femoral artery) and distal (tibial artery) with protection on both right and left legs.

“60% of preventable combat deaths are from extremity bleeding and 50-70% of all combat injuries are extremity wounds”

The BLACKHAWK!™ Integrated Tourniquet System (I.T.S.) integrates up to four tourniquets into the legs and arms of each garment. They are strategically positioned and oriented to the upper and lower extremities for immediate access under existing gear and can be operated by the wearer, a buddy, or a medic.

INTEGRATED TOURNIQUET SYSTEM

CARBON FIBER WINDLASS

ROUTING CHANNEL
(LOCATED INSIDE THE PANT)

HIGH PERFORMANCE FIGHTING UNIFORM (HPFU™) WITH I.T.S.®

The BLACKHAWK!™ High Performance Fighting Uniform (HPFU) is a revolutionary approach to the combat uniform, featuring a lean, athletic cut with articulated knees and elbows for increased performance, mobility, and reduced bulk. Constructed with no-melt, no-drip materials, the HPFU uniform integrates four life-saving tourniquets into the arms and legs of each garment and meets U.S. Army Institute of Surgical Research tourniquet requirements (USAISR).

BLACKHAWK!™ PERFORMANCE COTTON PANTS

These rugged tactical pants are designed with high-performance materials and come equipped with a number of innovative features, giving you everything you need for optimum performance— utility, comfort, and durability.

- Constructed of durable, wrinkle-, and fade-resistant 8.5 oz. cotton canvas
- Double layering in seat and knees for added wear and protection
- Gusseted crotch allows increased movement
- Extra-wide, reinforced belt loops accommodate BLACKHAWK!™ CQB/Rigger's Belt and other belts up to 1.75" wide
- Silicone grip strip in waistband keeps shirt tucked in during extreme maneuvers
- Hidden, expandable waistband slides to increase waist size for increased mobility
- Angle-cut hand pockets have flat edges for proper placement and orientation of knives, pens, etc.
- Each leg has an easy-access, top-opening mag pouch
- Large, top-opening cargo pockets have segmented 2" elastic webbing inside to allow the intelligent storage of up to three weapon magazines, flashlights, knives or other items for quick access
- Secure, vertical, zippered storage pocket on the outside of each cargo pocket for easy access while seated
- Zippered, rear hip pocket keeps wallet secure, out of the way, and separate from large rear pockets
- Large, hidden zipper pocket behind right-hand pocket keeps valuable items secure but quickly accessible
- Reinforced hems on leg cuffs for increased durability
- Integrated knee pad pockets (pads sold separately)
- High-quality YKK® zippers and Prym® snaps

BLACKHAWK!™ THERMOSTATIC BASE-LAYER™ GARMENTS
ENGINEERED FIT™ SERIES

Our Thermostatic Base-Layer™ Garments are designed to regulate body temperature, wick moisture, dry quickly, and control odor. The Engineered Fit™ Series allows you to choose between a body-contoured Standard Fit and full Compression Fit simply by size selection. Select one size down from your normal size to achieve a Compression Fit, a true next-to-skin, no-movement fit which eliminates potential friction-related “hot spots” and helps reduce muscle fatigue.

Thermostatic Base-Layer™ Features and Benefits:

- Modern athletic fit
- Designed for maximum comfort and freedom of movement
- Smooth matte-finish face surface reduces drag and bulk when layering
- Soft, next-to-body, jacquard elastic waistband
- Hybrid construction with stretch mesh panels enhances freedom of movement and heat dissipation
- Flat-seam construction and seamless top of shoulder helps prevent skin irritation
- Textured, brushed interior enhances moisture wicking
- Antimicrobial treatment for odor control
- Fast drying

Mesh Panel Construction:

Strategically placed mesh panels enhance freedom of movement and heat dissipation.

Flat-Seam Technology:

Innovative flat-seam stitching technique minimizes irritation in the seam areas

Moisture Wicking:

Brushed interior fabric breaks up fibers to enhance moisture-wicking performance via capillary action. Additional moisture-wicking treatment helps repel moisture.

Antimicrobial/Odor Control:

Garments are treated with an antimicrobial treatment which inhibits the growth of bacteria and prevents odor.

Engineered Fit™ Technology:

Unique material technology allows you to choose between a body-contoured Standard Fit and full Compression Fit simply by size selection.

Size Selection:

To find your size, look up your measurement in the chart below. As demonstrated in the chart, if your chest measures from 42” – 44” and you prefer a body-contoured Standard Fit, choose size Large. If you prefer a full Compression Fit, simply size down to a size Medium.

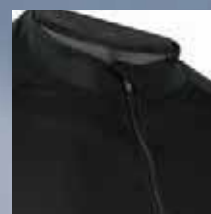

For Standard Fit: select exact size
Compression Fit: select one size down from your normal size

FITTING CHART

(In inches, using chest size for tops and waist size for bottoms)

OUTERWEAR

Looking for the best in performance outerwear? Shop BLACKHAWK!™'s complete line of jackets, including fleece outerwear, soft-shell jackets, and waterproof systems.

BLACKHAWK!™ WARRIOR WEAR™ JACKET SYSTEM

The Warrior Wear Jacket System consists of three jackets designed to be used separately or layered in combination with each other depending on the temperature, elements, and the wearer's need for insulation, ventilation, and wind or water resistance. Each layer of the system has a highly sophisticated design that incorporates the highest grade performance fabrics and most advanced construction techniques available. Jackets are sold separately only.

BLACKHAWK!™ TRAINING JAK – LAYER 1

- Lightweight training jacket for moderate warmth while training or in the field
- Excellent protection for aerobic activities or as a general-use jacket in mild conditions
- Water-resistant, windproof, breathable three-layer laminate with brushed lining
- DWR (Durable Water Repellent) finish to outer fabric surface
- Stretch panels and raglan cut provide lean, athletic fit
- YKK® center-front zipper with semi-auto locking slider
- Comfortable, microfleece, brushed-tricot collar lining
- Zippered chest pocket for storing valuables

Featuring the same rugged durability as our popular Tactical Pants and Performance Cotton Pants, the new Station Wear Pants with reflective piping are designed especially for fire/EMS professionals.

- Durable 8.5 oz. 100% cotton canvas
- Generous, deep pockets designed for placement of knives, pens, radios, tools, etc.
- Hidden expandable waistband slides for increased mobility and comfort
- Silicone grip strip in waistband keeps shirt tucked in during extreme maneuvers
- Gusseted crotch allows increased movement
- Reinforced hems on leg cuffs and hand pockets for increased durability
- Double layering in seat for added wear and protection
- Integrated knee pad pockets (pads sold separately, see page 4)
- Reflective piping on outseam
- Traditional fit

86TP04NA
Even Waist Sizes:
28" – 44" (30", 32", 34", 36" inseam)
46" – 54" (39" inseam only; shipped unhemmed with no cuff reinforcement)

Reflective piping on outseam

Large cargo pocket with zipper storage and hook & loop closure

ARMOR

QUICK RELEASE SYSTEM:

1 SECOND

2 SECONDS

2.5 SECONDS!

Our mission at BLACKHAWK!™ is to design, manufacture, and globally distribute armor and armor-related gear that will improve operator efficiency, confidence, and mission completion.

Whether worn alone or dovetailed with any of our other products, BLACKHAWK!'s wide selection of armor, carriers, plates, helmets, and accessories provides all-around protection to suit every warrior's needs. From our ergonomically advanced S.T.R.I.K.E.® Cutaway Tactical Carrier to our Threat Level IIIA Special Threat Soft Armor panels, BLACKHAWK! Armor™ has you covered.

CARRIERS

The BLACKHAWK!™ Cutaway Tactical Carrier features our patented Increased Area Coverage for fullest coverage possible and utilizes proven, state-of-the-art ballistic materials that are NIJ 0101.06 certified as well as tested to MIL-STD 662F standards.

PLATES

Shown within the following pages is a family of multi-curved "operator cut" plates. All BLACKHAWK!™ standalone plates are certified in accordance with NIJ Standard 0101.04 and Standard 0101.05 Level IV protection requirements. Made of a proprietary ceramic material, our plates are designed to be worn alone or in conjunction with our NIJ Certified Level IIIA soft armor panels.

HELMETS

BLACKHAWK!™ Armor also offers a MICH-style Level IIIA ballistic helmet that is based on the Special Forces Modular Integrated Communications Helmet (MICH). Our helmet enhances operator movement and awareness with a fully adjustable, padded suspension system and a modified, compact shell for unobstructed field of view and hearing. The BLACKHAWK! helmet has been tested in accordance with HPWTP-0401B Test Procedure and MIL-STD 662F for fragmentation.

MANUFACTURING

In order to meet the ever-changing demands of the tactical industry, we've expanded our carrier line to include two manufacturing options: Berry compliant and commercial off-the-shelf (COTS). Look for "BAC" or "COTS" under product descriptions.

A magnitude of pouch placement makes this the MOST VERSATILE ARMOR SYSTEM EVER!

HELMETS

BLACKHAWK!™ BALLISTIC LEVEL IIIA MICH HELMET

Based on the original Special Forces MICH, the Ballistic Level IIIA MICH Helmet maintains a large coverage area while providing superior comfort. It is specifically designed for military and police special tactical units where compatibility with all NV and communication systems is of critical importance. BLACKHAWK!'s dedication to combine hands-on testing with in-depth research and development has resulted in a unique, four-point, padded suspension system that won't require replacement with aftermarket pads.

PATENTED STRAP DESIGN

IMPROVED OPERATOR'S CUT
TO ENHANCE HEARING AND VISION

QUICK-RELEASE SYSTEM
TWO-WAY ADJUSTABLE CHIN STRAP

COMFORTABLE HEAD
HARNESS IS FULLY
ADJUSTABLE AND INSULATED
(PATENTS PENDING)
ADJUSTABLE CROWN AND
TEMPLE TENSION

Specifications:

- Weight: 2.7 lbs.
- Construction: Plain weave aramid in a high-tensile elongation resin
- Coating: Epoxy and polyurethane shell coatings

Performance:

- Successfully completed H.P. White Laboratory Test Procedure HPW-TP-0401.01B for ballistic performance and tested to MIL-STD 662F for fragmentation performance
- V50 w/9mm performance at over 1400 fps
- V50 w/17 grain FSP MIL-STD frag round at over 2300 fps
- Comfortable head harness is fully adjustable and insulated (patent pending)
- Adjustable crown and temple tension
- Quick-release system
- Improved operator's cut to enhance hearing and vision

Additional Features:

- Fully adjustable to fit a variety of head sizes
- Two-way adjustable rear support and adjustable chin strap

REINFORCED SPINE!

BLACKHAWK!™ CQC™ PISTOL BELTS

Ordinary dress belts don't have the stability to keep a handgun from rolling out, and they're simply not the proper platform for carrying handguns, spare mags, or handcuffs. And wearing a heavier belt with a suit can scream, "Armed professional!" These belts give you the same appearance of any other dress belt, combining premium materials with the added benefit of a polymer reinforcement spine.

800.694.5263

With shrinking expenditures and tightening budgets, law enforcement and military organizations worldwide are straining to get the most bang for their buck. At Dynamic Entry we understand these fiscal constraints and strive to provide the most effective and cost-efficient manual entry tools available anywhere. Strategic alliances with our vendors have allowed us to keep our price increases to a minimum year after year while still providing innovation and breaching tools that meet or exceed our own rigid standards.

This year we are introducing the Mini Breaching Sledge which features a redesigned head with friction ridges on the bill for added stability during breaching operations while still using micro-metals for reduced spalling. This slimmer and more compact design provides overall weight reduction while increasing the effectiveness of the tool. Continuing our objective of lighter, faster, and stronger, this year also sees the introduction of the Mini Dynamic Duo, a more compact version of our very well-received Dynamic Duo.

With Dynamic Entry, *Nothing Shall Stand in your Way!*®

Check out videos online for all Dynamic Entry tools! youtube.com/bpggear

COLLAPSIBLE TOOL SERIES

Combining years of research and development with input from operators in the field, our groundbreaking Collapsible Tool Series exceeds our legendary durability standards. At the heart of this revolutionary design are the following features:

- Compact collapsible design for transport and operations in close quarters
- Extended shafts provide extra leverage for more strike power, pry leverage, and breaching force
- Epoxied fiberglass core surrounded by two interlocking stainless steel shafts
- Dual-locking mechanism secures shafts when extended
- Form-fitting handgrip provides secure grip in extreme weather conditions and protects locking mechanism from dirt or debris

BLACKHAWK!™ DYNAMIC ENTRY® COLLAPSIBLE BREACHER

The Collapsible Breacher features our tempered stainless steel wedge with counter-angled friction ridges that are specifically designed to grip breaching surfaces securely. These counter-angled friction ridges increase stability and reduce tool slippage during breaching operations.

Specifications:

- Weight: 7.4 lbs.
- Length collapsed: 16.75"
- Length extended: 24.5"

DE-CB

BLACKHAWK!™ DYNAMIC ENTRY® COLLAPSIBLE MINI THUNDERSLEDGE™

Featuring a 6-lb. drop-forged head, the Collapsible Mini Thunder Sledge is custom-designed to deliver exceptional striking force when extended.

Specifications:

- Weight: 10.2 lbs.
- Length collapsed: 14.5"
- Length extended: 22"

DE-CMTS

BLACKHAWK!™ DYNAMIC ENTRY® COLLAPSIBLE STAINLESS HALLAGAN TOOL

The Collapsible Stainless Hallagan Tool has the added benefit of a horn for stubborn prying chores. It also features counter-angled friction ridges for tool stability and slippage prevention.

Specifications:

- Weight: 7.7 lbs.
- Length collapsed: 16.75"
- Length extended: 24.5"

DE-CSHT

BLACKHAWK!™ DYNAMIC ENTRY® THE SMALL PRY™

The Small Pry, a revolutionary breaching tool combining specialized prying capabilities with a readily available cutting edge, is a collaborative effort between BLACKHAWK!s Dynamic Entry® and Knife design teams. The Small Pry is ideal for:

- Prying interior doors and drawers
- Window "break and rake" operations
- Tactical cutting chores such as removing screens and chopping through drywall

Specifications:

- Blade length: 4.390"/112 mm
- Overall length: 14.460"/367 mm
- Blade material: D-2 tool steel
- Blade finish: Corrosion-resistant black epoxy powder coating
- Edge type: Plain edge only
- Handle material: Checkered, over-molded thermoplastic rubber
- Sheath: Injection-molded nylon
- Weight: 1.5 lbs. with sheath

S.T.R.I.K.E.® Mounting Kit

BLACKHAWK!™ DYNAMIC ENTRY® SPECIAL OPERATIONS ENTRY RAM

PATENTED

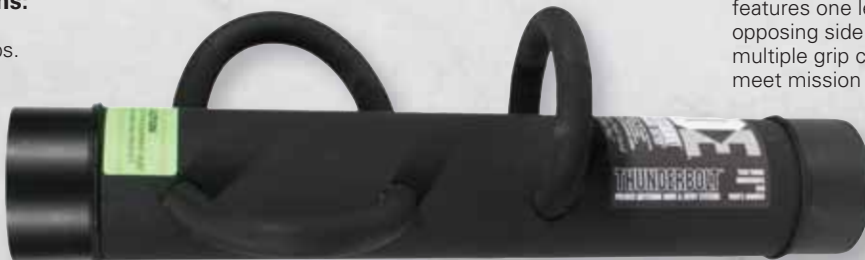

The patented Special Operations Entry Ram answers all of the requests and suggestions from operators in the field for a compact yet powerful tactical entry ram

- Electrically nonconductive, non-sparking construction
- Ergonomic control-flex handle system reduces impact stress
- Operator-friendly, ambidextrous handle orientation
- Can be used by either one or two operators
- Forward-weighted design is a close-quarter alternative to the MonoShock Ram™

Specifications:

- Length: 25"
- Weight: 30 lbs.

DE-SOER

The revolutionary ambidextrous design of the Special Operations Entry Ram™ features one lead handle and two opposing side handles, allowing for multiple grip configurations to help meet mission specific requirements.

youtube.com/bpggear

A BLACKHAWK!™ DYNAMIC ENTRY® ACTIVE SHOOTER HALLAGAN TOOL

Designed with active-shooter callouts in mind, the Active Shooter Hallagan Tool's wedge features counter-angled friction ridges to help prevent tool slippage, grip breaching surfaces securely, and increase bite when breaching even the most robust doors like those found in government and school facilities.

- Non-sparking fork end
- Redesigned, tempered stainless steel wedge and horn
- Counter-angled friction ridges provide stability and prevent tool slippage
- Ergonomic handle reinforces proper hand placement
- Electrically nonconductive to 100,000 volts AC

Specifications:

- Weight: 7.5 lbs.
- Length: 24"

DE-ASHT

BLACKHAWK!™ DYNAMIC ENTRY® BREAK-N-RAKE™

Specifically engineered for window entries, the Break-N-Rake has been involved in successful tactical operations in both the U.S. and abroad. In addition to window entries, it is ideal for securing secondary breach locations and creating tactical distractions.

- Laser-cut hook and serrated blade constructed of military-grade steel
- Three 12" raking fins constructed of carbon steel and designed to clear away glass and other debris
- Reinforced hook effectively removes curtains, blinds, and other obstructions
- Electrically nonconductive D-handle system is resistant to 100,000 volts AC

BREAK-N-RAKE™

Specifications:

- Weight: 9.6 lbs.
- Length: 51"

DE-SBR

B BLACKHAWK!™ DYNAMIC ENTRY® MINI BREAK-N-RAKE™

Designed in conjunction with domestic and international operators, the Mini Break-N-Break is perfect for those close-quarter window entries where space is at a minimum.

- Compact, lightweight, and portable
- Electrically nonconductive D-handle system is resistant to 100,000 volts AC
- Can replace DE-SOHT in the Tactical Backpack Kit
- Easily fits the trunk of patrol or rescue vehicles

Specifications:

- Weight: 4.5 lbs.
- Length: 25"

DE-MBR

A BLACKHAWK!™ DYNAMIC ENTRY® TACTICAL BREACHING SAW

The 64" Tactical Breaching Saw keeps the operator at a safe distance while cutting inspection holes in false ceilings, breaching lightweight metal skins (such as those found on mobile homes), or when cutting through sheetrock and other light building materials

- High-carbon steel head with specifically positioned cutting teeth
- Sharpened edge and tip for chopping and cutting operations
- Sturdy sheath protects both the operator and the tool
- Electrically nonconductive D-handle system is resistant to 100,000 volts AC
- Available in Black and high-visibility Yellow

Specifications:

- Weight: 9.5 lbs.
- Length: 64"

B BLACKHAWK!™ DYNAMIC ENTRY® MOBILE HOME DOOR BREACHER

Outward-opening mobile home doors have been a breacher's nightmare for years. But now, with the Mobile Home Door Breacher, breachers can safely and rapidly enter into outward-opening, metal-skin mobile home doors during tactical operations. The Mobile Home Door Breacher meets Dynamic Entry's legendary standards of excellence and is guaranteed to withstand years of use.

- D-handle system is electrically nonconductive to 100,000 volts AC
- Unique leverage orientation pulls locking mechanism free of doorjamb while opening the door
- Laser-cut, reinforced carbon-steel head

Specifications:

- Weight: 5.5 lbs.
- Length: 28.5"

BLACKHAWK!™ DYNAMIC ENTRY® BREACHING SLEDGES

The Breaching Sledges bring together the best of both worlds, combining the strike face of a sledge hammer with the prying wedge of a Hallagan Tool.

- Micro-metal composition for added strength and reduced spalling when struck together
- Electrically nonconductive fiberglass handle is resistant to 100,000 volts AC
- Sure-grip handle system reduces the chance of slippage during operations
- Also available in a larger version, the Super Breaching Sledge™

BLACKHAWK!™ DYNAMIC ENTRY® DYNAMIC DUO™

The durable, easily deployable Dynamic Duo™ can be used in the majority of breaching situations and includes the ThunderSledge™, the Breacher™, and the Dynamic Duo Quiver.

- The Breacher™ has a tempered stainless steel wedge with counter-angled friction ridges designed specifically to grip breaching surfaces securely and provide stability
- The ThunderSledge™ utilizes the Sure-grip handle system that reduces slippage during operations
- Both tools are electrically nonconductive to 100,000 volts AC
- The Dynamic Duo Quiver has quick-release straps that allow for immediate “dumping” and rapid deployment
- Also available in a lighter and more compact version, the Mini Dynamic Duo

BLACKHAWK!™ DYNAMIC ENTRY® PADLOCK BUSTER

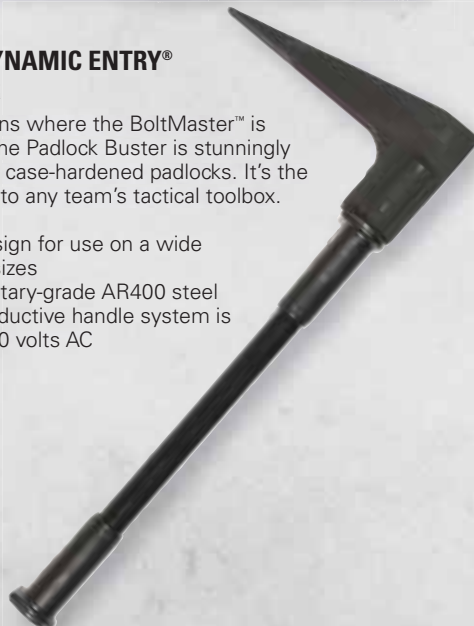

Designed for situations where the BoltMaster™ is not recommended, the Padlock Buster is stunningly effective in defeating case-hardened padlocks. It's the perfect complement to any team's tactical toolbox.

- Classic duckbill design for use on a wide variety of padlock sizes
- Constructed of military-grade AR400 steel
- Electrically nonconductive handle system is resistant to 100,000 volts AC

Specifications:

- Weight: 6.3 lbs.
- Length: 24.25"

DE-PB

BLACKHAWK!™ DYNAMIC ENTRY® NON-SPARKING, ELECTRICALLY NONCONDUCTIVE HALLAGAN TOOLS

Designed specifically for potentially volatile environments, this tool line features a composite construction that won't spark during prying operations or when struck.

- Non-sparking and electrically nonconductive to 100,000 volts AC
- Fork and horn end for prying and breaching
- Ergonomic handle reinforces proper hand placement
- In conjunction with any of the ThunderSledge™ series, the horn is effective for breaching padlocks

NOTE: The non-sparking alloy used in these tools is not intended for use on steel doors and frames. If breaching steel doors, Dynamic Entry® recommends using one of our stainless steel tools such as the Stainless Hallagan Tool™.

BLACKHAWK!™ XIPHOS NT™ WEAPON-MOUNTED LIGHT – WITH UPDATED CREE® X LED

Designed for one-hand activation, this weapon-mounted light features a patent-pending Cam-Clamp mount that allows the user to quickly install the light onto nearly any rail weapon mount without using tools. The Cam-Clamp eliminates the need to slide the light down long rails, and it installs in the desired location instantly.

- Duplicate ambidextrous operation of all programmed functions
- Intelligent circuit design eliminates afterglow
- Over two hours of total runtime
- No tools required for installation or battery removal
- Anti-reflective glass lens ensures maximum light output
- Incredibly lightweight and won't change the feel of your weapon
- Corrosion-resistant black anodized aluminum
- Stainless steel with black oxide-finish metal
- Injection-molded carbon-fiber/polymer body
- High-impact LIFETIME LED resists high G-forces from recoil and drops
- Modes of output: Momentary Switch, Constant On, Strobe, and Low Battery Indicator
- Water resistant up to 10 meters
- Increased output to 180 lumens
- Improved tailcap and switch

BLACKHAWK!™ ALLY™ PL3X XTR

- Illuminates objects and targets up to 85 meters away
- Ideal for hunting, high-output tactical needs, or personal carry
- Utilizes the latest generation of CREE® XR-E bulbs for smoothest beam of light possible
- Modes of output: Momentary Switch and Constant On

BLACKHAWK!™ LEGACY™ L6-P

Boasting more light output and runtime than any other light of its size, the Legacy L6-P utilizes the latest generation 3-watt CREE® LED for equivalent light output of a 7 or 8 D-cell flashlight. This compact, high-intensity, LED flashlight produces a smooth, intense, pre-focused beam and comes standard with a glass lens.

- Durable, polymer, LED version of our popular Legacy X6
- Uses the latest generation of CREE® XR-E bulb for smoothest beam of light possible
- More light output and runtime than any other light of its size
- Modes of output: Momentary Switch and Constant On

SPECIFICATIONS:	LEGACY™ L6-P
Max Output	90 Lumens
Diameter	1.25"
Length	5"
Weight (with/without batteries)	4.3 oz. / 3.1 oz.
Runtime	2 – 3 Hours

D NEW! BLACKHAWK!™ OFFSET FLASHLIGHT RAIL MOUNT

- For mounting flashlights to picatinny style rails
- Offset design provides multiple options for optimal positioning
- Compatible with 1" body flashlights
- Constructed of 6061 T6 Aluminium
- Type III Hardcoat Anodize Finish
- Adds minimal weight (approximately 1.5 oz.)
- Made in the USA

71RM01BK

E BLACKHAWK!™ PRESSURE REMOTE TAPE SWITCHES

- Replacement tail-cap assembly with remote tape switch allows many BLACKHAWK!™ lights to be easily converted to weapon-mounted lighting tools (one" flashlight mount required)
- 2 3/8" pressure pad attaches to weapon with set of adhesive hook & loop patches (included), allowing it to be positioned for optimum ergonomics
- 11" cord provides just enough length for convenient switch placement without interfering with weapon operation
- Cord attaches tail cap with mini plug connector to reduce cord fatigue and allow the light to be quickly removed for maintenance and battery replacement

Compatible with the Legacy X6, Legacy XR7, Legacy L6R, Ally PLR, and Conquest PL3.

THE SERPA® HOLSTER

BLACKHAWK!™ THE INDUSTRY LEADER IN HOLSTER DESIGN

LEVEL 3 DUTY

**AUDIBLE LOCKING SOUND
UPON RE-HOLSTERING**

SERPA® TECHNOLOGY

When it comes to speed and reliability, our patented SERPA technology guarantees unparalleled performance. The placement of the SERPA Auto Lock™ release reinforces full master grip by allowing you to draw the weapon normally with the index finger sliding from holster body to weapon frame in one single movement. This proven retention design engages the trigger guard as the pistol is holstered and won't let go until you release it. With our Level 3 holsters (pictured at left), the Pivot Guard opens by thumb activation. This adds an extra level of retention, and it's designed so it won't close accidentally, locking you out of the holster.

CONSTRUCTED OF A PROPRIETARY CARBON-FIBER BLEND

Using an injection-molding process, SERPA® holsters are custom molded according to the specific weapon model and are constructed of a lightweight yet resilient polymer carbon-fiber blend. Benefits of carbon fiber include:

- Lightweight, sleek, and professional
- Retains shape and crisp appearance
- Not affected by heat or cold
- Not affected by chemicals
- Finish options match other gear

MULTIPLE LEVELS OF SECURITY

- 1 PASSIVE RETENTION ADJUSTMENT SCREW**
- 2 SERPA® AUTO LOCK™ TECHNOLOGY**
- 3 THUMB-ACTIVATED PIVOT GUARD**

youtube.com/bpggear

COMMONALITY OF TRAINING

- Reinforces full master grip
- Auto Lock™ position reinforces finger on frame
- All platforms use common draw technique

CARRY POSITIONS

At BLACKHAWK!™, we understand that versatility is important to our customers. With a wide range of carry options—on the hip, leg, chest, or shoulder—SERPA® holsters are at the ready when needed and provide complete versatility for each customer's varied yet specific mission requirements.

LEVEL 2 CONCEALMENT SERPA

SYSTEM SIMPLE. SECURE. FAST.

INTUITIVE DRAW TECHNIQUE

Lay the pad of index finger on top of the SERPA® release. Apply pressure against the release with extended index finger flat and straight as you draw.

[PATENTED 5,918,784 AND/OR OTHER PATENTS PENDING]

SERPA® FUNCTION

The drawing motion from a SERPA holster reinforces proper grip, weapon presentation and safety. The placement of the SERPA Auto Lock™ release reinforces a full master grip by allowing the shooter to draw the weapon with the index finger sliding from the holster body to the weapon frame in a single movement. This draw technique is common to all holster types in the SERPA family, allowing officers to transition from a simple Level 2 duty or tactical holster to a more elaborate Level 3 duty or tactical holster using the same technique. By reinforcing the learned skills, training time is significantly reduced, and officer safety and survivability in high-stress situations is increased.

- Intuitive draw technique
- Commonality of draw across all holster platforms
- Reduced training time
- Increased effectiveness under stress

HOLSTER LINEUP

BLACKHAWK!™ boasts an extensive lineup of state-of-the-art SERPA® holsters that leave old-fashioned thumb breaks, complicated mounting systems, and cumbersome equipment in the dust. Whether you're looking for a low-profile concealment holster, reliable duty holster, or high-performance tactical holster, SERPA delivers unrivaled speed and security for optimum performance.

**LEVEL 2
CONCEALMENT**

LEVEL 2 DUTY

LEVEL 3 DUTY

**LEVEL 3 DUTY
LIGHT BEARING**

MULTIPLE LEVELS OF SECURITY

Holsters with Level 2 retention are equipped with two levels of weapon security. Our Level 2 SERPA® holsters incorporate both a passive retention detent adjustment screw and the patented SERPA Auto Lock™ release. The passive retention screw allows the user to adjust the force needed to pull the handgun out of the holster after the SERPA lock is released. Level 3 SERPA holsters feature three levels of security: a passive retention detent adjustment screw, SERPA Auto Lock release, and thumb-activated Pivot Guard. Combined, these exclusive features provide outstanding weapon retention.

SERPA® CONCEALMENT HOLSTERS

MATTE FINISH

ALL BLACKHAWK® SERPA® CQC® CONCEALMENT HOLSTERS COME WITH BOTH BELT LOOP AND PADDLE PLATFORM

SERPA® CQC® CARBON-FIBER HOLSTER WITH SERPA ACTIVE RETENTION SYSTEM [PATENTED 5,918,784 AND OTHER PATENTS PENDING]

Featuring a unique speed-cut design, the CQC Carbon-Fiber Holster allows for smooth draw and easy re-holster without slowing you down. The patented SERPA Auto Lock™ release delivers unparalleled weapon security and is automatically positioned to facilitate a correct drawing motion, making it the perfect Level 2 retention holster for concealed carry.

- Passive retention detent adjustment screw and SERPA® Auto Lock™ release
- Reinforces full master grip and superior draw technique
- Immediate retention and audible click upon re-holster for security
- Speed-cut design allows rapid draw, target acquisition, and re-holster while keeping eyes on target
- Includes belt loop and paddle platform
- Increase your holster's versatility with the SERPA® Quick Disconnect System Kit (sold separately, page 118)

[PATENTED 5,918,784 AND OTHER PATENTS PENDING]

Featuring a unique speed-cut design, the CQC Carbon-Fiber Holster allows for smooth draw and easy reholster without slowing you down. The patented SERPA Auto Lock™ release delivers unparalleled weapon security and is automatically positioned to facilitate a correct drawing motion, making it the perfect Level 2 retention holster for concealed carry.

- Passive retention detent adjustment screw and SERPA® Auto Lock™ release
- Reinforces full master grip and superior draw technique
- Immediate retention and audible click upon re-holster for security
- Speed-cut design allows rapid draw, target acquisition, and re-holster while keeping eyes on target
- Includes belt loop and paddle platform
- Increase your holster's versatility with the SERPA® Quick Disconnect System Kit (sold separately, see page 118)

All BLACKHAWK!™ SERPA® CQC® Concealment Holsters come with both belt loop and paddle platform.

FOR HIGH-THREAT-LEVEL ENVIRONMENTS, USE THE SERPA® CQC® CARBON-FIBER HOLSTER!
(PAGE 102 AND 103)

SERPA® CQC® SPORTSTER HOLSTER [PATENTED 5,918,784 AND OTHER PATENTS PENDING]

The CQC Sportster is designed to support civilian concealed carry or range use. Made with traditional polymer, this injection-molded holster features the same dependable SERPA technology but is tailored for low-threat civilian operation. Law enforcement and military personnel should use the original SERPA CQC Carbon-Fiber Holster for high-threat-level environments.

- Gunmetal gray holster body with black SERPA® Auto Lock™ release
- Passive retention detent adjustment screw
- Reinforces full master grip and superior draw technique
- Immediate retention and audible click upon re-holster for security
- Speed-cut design allows rapid draw, target acquisition, and re-holster while keeping eyes on target
- Includes paddle platform only

SERPA® CQC® LIGHT BEARING FOR XIPHOS™ NT

[PATENT PENDING]

The sleek CQC Light Bearing Holster makes it convenient to carry our weapon light on a concealed handgun. The slim profile of the BLACKHAWK!™ Xiphos™ NT Light (sold separately, page 88) creates no added bulk and fits securely in this compact Level 2 holster.

- Passive retention detent adjustment screw and SERPA® Auto Lock™ release
- Reinforces full master grip and superior draw technique
- Immediate retention and audible click upon re-holster for security
- Speed-cut design allows rapid draw, target acquisition, and re-holster while keeping eyes on target
- Includes belt loop and paddle platform
- Increase your holster's versatility with the SERPA® Quick Disconnect System Kit (sold separately, page 118)

SERPA® LEVEL 2 AUTO LOCK™ DUTY HOLSTER-BLACK

[PATENTED 5,918,784 AND OTHER PATENTS PENDING]

SERPA® LEVEL 2 AUTO LOCK™ DUTY HOLSTER

Based on our popular SERPA Tactical Holster, this jacket-slot belt-loop version gives both the tactical operative and patrol officer the option of SERPA's retention and speed in a duty-style holster. Whether worn as part of your duty rig or as a belt-mounted holster for tactical use, you get the same great SERPA technology with this Level 2 duty holster.

- Passive retention detent adjustment screw and SERPA® Auto Lock™ release
- Reinforces full master grip and superior draw technique
- Immediate retention and audible click upon re-holster for security
- Full-length holster body protects rear sights
- Reduced gun profile supports community-friendly look
- Same drawing technique for undercover, tactical, and duty
- Includes angle-adjustable jacket-slot belt loop
- Mid-ride and high-ride belt loops also available (sold separately, page 117)

BLACKHAWK!™ TASER® X26 CARTRIDGE HOLDER

- Injection-molded carbon-fiber blend
- Attaches easily to BLACKHAWK!™ TASER® X26 Duty Holster
- Rapid reload capability
- Mini-Mod-U-Lok™ belt loop with adjustable spacer, fits most duty belts
- Ambidextrous design
- Design allows speed load of cartridge directly from pouch

44A890BK

NEW! TASER® X2 DUTY HOLSTER

Based on our successful X26 Duty Holster, this gives agencies stepping up to the TASER X2 the ability to get a holster with the same high level of performance. The injection-molded holster covers the trigger and digital readout window and protects the probe housing for serious protection. The intuitive release and fast draw give officers the performance they need even under stress.

L2 DUTY HOLSTER TASER - MATTE FINISH

44HT01BK-R or L

TASER® X26 LEVEL 2 DUTY HOLSTER

Featuring unparalleled retention and coverage, the TASER X26 Duty Holster incorporates our Detachable Belt Loop so officers can exchange the TASER between shifts without having to remove other items from their duty belt. This holster fits all SERPA® platforms, including duty belt loops, S.T.R.I.K.E.® equipment, and both shoulder and tactical thigh platforms. Plus, a multi-position design and rock-outward draw (versus traditional straight draw) help prevent weapon confusion under stress.

- Automatically engages the safety when re-holstering
- Holster bottom is configured to block the probes in case of accidental activation
- Trigger and trigger guard are completely enclosed inside holster
- Carries TASER® X26 with optional camera unit attached
- Extended coverage protects poly carbonate digital readout window
- Belt loop fits most duty belts
- Redesigned to hold the TASER® X26 Cartridge Holder (sold separately, 44A890BK, shown left)
- Rigid holster body delivers improved retention
- Protects cartridge in holster

NEW! TASER® SIDE MOUNT PLATE

This adapter plate allows you to mount the TASER X26 Cartridge Holder to your TASER X26 holster and still save space on your duty belt. The unique front side positioning still allows for a fast reload, while reducing the space required on the belt.

- Ideal for small-waisted officers
- Perfect for mounting on a crowded MOLLE vest
- Reduces space needed on duty belt for spare cartridge
- Works with up to 2 1/4 inch duty belt
- Positions spare cartridge to outboard side or TASER holster for rapid access

ATTACHES TO BELT WITHOUT HAVING TO REMOVE THE BUCKLE OR POUCHES

SERPA® LEVEL 3 AUTO LOCK™ DUTY HOLSTER

[PATENTED 5,918,784 AND OTHER PATENTS PENDING]

Level 3 retention holsters have long been the standard for law enforcement duty use. Now, thanks to the proven SERPA Auto Lock technology, you can draw your weapon rapidly under stress, using your natural drawing motion with no unnatural maneuvers or complicated sequences to remember. Just grab and draw!

- Passive retention detent adjustment screw and SERPA® Auto Lock™ release
- Thumb-activated Pivot Guard for additional security
- No thumb break or awkward middle finger release to slow down your draw
- Reinforces full master grip and superior draw technique
- Immediate retention and audible click upon re-holster for increased officer safety
- No snaps or hoods to accidentally open
- Full-length holster body protects rear sights
- Same drawing technique for undercover, tactical, and duty
- Includes angle-adjustable jacket-slot belt loop
- Mid-ride and high-ride belt loops also available (sold separately, page 117)

BLACK(BK) OLIVE DRAB(OD) FOLIAGE (FG) COYOTE TAN(CT)

SERPA® LEVEL 2 TACTICAL HOLSTER [PATENTED 5,918,784] AND OTHER PATENTS PENDING

Made specifically to meet the demands of tactical operations, the Level 2 Tactical Holster gives you the benefits of a drop-leg configuration for ideal holster location.

- Flexible thigh platform conforms to leg size
- Y-harness suspension system distributes weight evenly, keeps holster vertical when kneeling, and allows use of pants pocket
- Quick-disconnect swivel buckles allow superior flexibility and quick holster mounting and dismounting
- Accessory mounting locations for pouches, knives, mag cases, etc.
- Rubberized leg straps eliminate sliding
- Passive retention detent adjustment screw and SERPA® Auto Lock™ release
- Reinforces full master grip and superior draw technique
- Immediate retention and audible click upon re-holster for increased officer safety
- Full-length holster body protects rear sights
- Same drawing technique for undercover, tactical, and duty
- Hole in holster body for bungee retention if desired

The Level 3 Tactical Holster is our highest level of function, retention, and security! Featuring a flexible thigh platform designed for breathability, comfort, and stability, this full-length holster includes a thumb-activated Pivot Guard and SERPA Auto Lock™ release. The Y-harness suspension system distributes weight evenly while quick-disconnect swivel buckles on the belt mounts deliver maximum mobility.

- Flexible thigh platform conforms to leg size
- Y-harness suspension system distributes weight evenly, keeps holster vertical when kneeling, and allows use of pants pocket
- Quick-disconnect swivel buckles allow superior flexibility and quick holster mounting and dismounting
- Accessory mounting locations for pouches, knives, mag cases, etc.
- Rubberized leg straps eliminate sliding
- Passive retention detent adjustment screw and SERPA® Auto Lock™ release
- Thumb-activated Pivot Guard for additional security
- No thumb break or awkward middle finger release to slow down your draw
- Reinforces full master grip and superior draw technique
- Immediate retention and audible click upon re-holster for increased officer safety
- No snaps or hoods to accidentally open
- Full-length holster body protects rear sights
- Same drawing technique for undercover, tactical, and duty

SHOULDER HARNESS FOR SERPA® HOLSTER PLATFORM

In response to countless requests for a SERPA® holster shoulder rig, we developed this comfortable shoulder harness platform for convenient weapon carry. It's constructed using a tapered, fully adjustable web harness and an offside dual Picatinny Rail Platform™ for any of our Picatinny Rail System™ accessories. The shoulder harness (Black only) is sized to fit from Medium to 3XL torsos and is available for both right- and left-hand designs.

- Mount your SERPA® holster on the underarm platform in horizontal position.
- Secure carry and natural drawing motion
- Enables one-handed re-holstering
- Made for both medium- and large-frame torso

BLACKHAWK!™ COMPACT SLIDE HOLSTER WITH MAG POUCH

This holster is no bigger than most slide holster designs, yet it gives you the added benefit of having a spare mag at your fingertips. Its flex design hugs the waistline and offers a snug, compact fit while its open bottom is ideal for weapons of varying lengths.

- Unique cut allows full combat grip yet safely covers trigger guard
- Available for single-stack and double-stack model pistols
- Molded detent helps keep magazine in place
- Mag position won't interfere with draw or re-holster
- Rear belt loop and dual front belt loop allow for strong-side, cross-draw, or appendix carry
- Adjustable tension screws

BLACKHAWK!™ LEATHER SPEED CLASSIC (AVAILABLE FOR MOST 2" AND 2 1/8 S&W, RUGER, TAURUS AND OTHER FIVE-SHOT REVOLVERS)

Simply put, this adaptation of the famous Berns-Martin design is a small holster for a small handgun. With its discreet design and heavy-duty construction, you'll never have to worry about clumsy draws or unreliable retention again. The holster is handmade of premium, wet-molded leather for durability and heavy-duty elastic for a secure fit. It also comes complete with a trailing belt loop to pull the grip in tight to the body.

BLACKHAWK!™ LEATHER INSIDE-THE-PANTS HOLSTER

The inconspicuous design of the Leather Inside-the-Pants Holster makes it the perfect choice for a secondary weapon or deep concealment while undercover or off duty.

- Angle-adjustable belt loop is mounted to reinforced upper body for stability
- Adjustable tension-screw gives you the choice on level of retention
- Shirt shield protects clothing, keeps holster opening unobstructed, and increases comfort
- Allows for middle-of-the-back, strong-side, appendix, or cross-draw carry
- Less bulk than most leather inside-the-pants holsters
- Molded sight track for smooth draw and re-holster

BLACKHAWK!™ LEATHER COMPACT ASKINS

The Leather Compact Askins Holster has been updated with the highest quality leather and a minimalist approach to offer more versatility and comfort than before. The belt loop sewn to the back of the holster keeps the handgun close to the waist while the trailing belt slot pulls the butt into the body for greater concealment.

- Sturdy injection-molded sight track
- Adjustable tension screw allows fine-tuning for personal preference
- Reinforced opening allows consistent ease in re-holstering
- Use full-size or compact model handguns

ULTIMATE CONCEALED CARRY SOLUTION! BLACKHAWK!™ BELT POUCH HOLSTER

These clever concealment pouches allow you to carry "hidden in plain sight." Designed to mimic a camera or tourist pouch, each has a top zipper opening that can remain open or closed with your handgun hidden behind a hook & loop flap. A separate pocket on the front of the pouch holds keys, cuffs, ID, or change and is an ideal spot for a camera, company patch, or other "corporate camouflage." Dual belt loops fit any belt up to 2" wide.

Mini Belt Pouch Holster

8"L x 5 1/2"H x 1 5/8"D
Fits 2" 5-shot revolvers
and subcompact autos

HOLSTER ACCESSORIES

BLACKHAWK!™ CQC® CONCEALMENT MODULAR ACCESSORIES FEATURING OUR PICATINNY SYSTEM

In our carbon-fiber composite line, we offer single magazine cases for 9mm/.40 cal/.45 cal/10mm single-stack mags and 9mm/.40 cal double-stack mags. Built-in tension springs keep your magazine secure but allow rapid removal when you need it. We also offer two different light carriers: one for detachable pistol lights like the M-3 style and one for small personal lights like the Streamlight® and Surefire® lights.

BLACKHAWK!™ CARBON-FIBER MAGAZINE CASES [PATENTS PENDING]

Our magazine cases come equipped with a built-in tension spring to securely hold magazines of various sizes. For those wanting a double magazine case on the same carrier, the belt clip can be removed for side-by-side case placement on our Dual Rail Accessory Platform. For yet another carry option, place the mag case next to one of our light carriers for a combo light/mag carrier.

BLACKHAWK!™ CARBON-FIBER DUAL RAIL™ ACCESSORY PLATFORM [PATENTS PENDING]

Our Dual Rail Accessory Platform features a preinstalled bracket on one of the rails for the M-3/M-6 family of lights. If you don't want the M-3 holder, simply remove it and mount another accessory of your choice. Available in both paddle and belt-loop models, these Dual Rail Accessory Platforms give you limitless carry options.

CF DUAL RAIL™ ACCESSORY PLATFORM SHOWN WITH MAGAZINE CASE AND M-3 LIGHT CARRIER. M-3 LIGHT CARRIER INCLUDED.

BLACKHAWK!™ CARBON-FIBER PISTOL LIGHT CARRIER

This high-strength carbon-fiber light carrier is designed for weapon-mounted Picatinny Rail lights such as the M-3/M-6 family of lights and other smaller models. Designed for wear with standard-width belts, our M-3 Light Carrier locks the light's switch in the off position, preventing it from accidentally turning on while you're wearing it. For ultimate protection, try carrying your light in the lens-down position to protect the lens from damage.

M-3 LIGHT CARRIER

BLACK

LIGHT NOT INCLUDED

BLACKHAWK!™ COMPACT LIGHT CARRIER

Designed to hold smaller, personal-sized lights, this compact yet rugged carrier is perfect for lights like the Streamlight® Scorpion, TL-2, or TL-3. Its button recess at the bottom prevents accidental light activation, and a built-in tension device provides secure light carry for cops, soldiers, and even civilians. For extended carry options, remove the belt clip from the Compact Light Carrier and mount it to our Dual Rail Accessory Platform with any of our other accessories.

BLACKHAWK!™ LEATHER MAGAZINE POUCH

Our single-stack and double-stack leather magazine pouches not only give you the ability to fit a variety of magazines, but an integral tension-adjustable screw allows you to adjust the carry angle by 30 degrees in either direction. The angle-adjustable belt clip features an aggressive talon that keeps the pouch in place. For additional versatility, remove the belt clip from its mount, and use the clip mount as a belt loop with most dress belts. The Leather Magazine Pouch is available for single-stack 9mm, 10mm, .40 cal, and .45 cal magazines or for double-stack 9mm and .40 cal magazines (metal or polymer).

MADE OF DURABLE CORDURA® NYLON TRADITIONAL-STYLE NYLON DUTY GEAR

At BLACKHAWK!™, we're determined to give our customers choices where other companies give you limits. To further expand our selection of nylon duty gear, we are offering a more traditional, non-molded line of CORDURA nylon products, featuring the abrasion resistance and easy care that CORDURA is noted for. Our exclusive four-layer laminate CORDURA® nylon, waterproof closed-cell foam padding, flexible polymer-reinforced layer, and 150 denier knit lining will give you years of service at a price that fits any budget. The injection-molded belt loops fit duty belts up to 2.25" wide, and many of the mag pouches work both vertically and horizontally on the duty belt.

NEW! BLACKHAWK!™ GIDEON™ DROP POINT

A great multi-purpose knife, the new Gideon Drop Point allows the user to employ the entire edge of the blade for a variety of cutting chores. Its robust, curved, fixed blade is constructed of AUS8A stainless steel with a black Ti-Nitride finish and houses 2 holes in the blade flat for convenient tethering. An additional finger groove in front of the quillon provides additional grip and control.

Specifications:

- Blade length: 5.000" /127 mm
- Overall length: 10.250"/260 mm
- Blade material: AUS8A stainless steel
- Blade finish: Black Ti-Nitride coating
- Edge type: Plain Edge
- Handle material: CNC-machined textured G-10
- Sheath: Injection-molded nylon with mounting plates

15DP00BK

NEW! BLACKHAWK!™ GIDEON™ TANTO

Featuring a modified "tanto" design, the fixed-blade Gideon Tanto is perfect for piercing or slashing and is ready for action when you are. The blade is constructed of AUS8A stainless steel with a black Ti-Nitride finish and houses 2 holes in the blade flat for convenient tethering.

Specifications:

- Blade length: 5.000" /127 mm
- Overall length: 10.250"/260 mm
- Blade material: AUS8A stainless steel
- Blade finish: Black Ti-Nitride coating
- Edge type: Plain Edge
- Handle material: CNC-machined textured G-10
- Sheath: Injection-molded nylon with mounting plates

**BLACKHAWK!™ BHB30™**

The BHB30 is an extremely reliable assisted-opening knife. When its 440C stainless steel blade is opened to approximately 30 degrees, a powerful spring in the handle snaps the blade to the fully opened position. A stout 420J stainless steel liner-lock locking mechanism secures the blade in place, and the tiger-striped texture on the handle provides a secure grip.

Specifications:

- Blade length: 3.250"/83 mm
- Overall length: 8.125"/206 mm
- Blade material: 440C stainless steel
- Blade finish: Stonewashed matte
- Edge type: Plain or partially serrated
- Handle material: 420J stainless steel liners nested in injection-molded nylon scales

BLACKHAWK!™ TATANG™

Designed by edged-weapons expert Michael Janich, the Tatang employs the savage cutting power of a traditional Filipino barong in a leaner, more versatile package. When gripped at the rear of the pistol-grip-style handle, the weight-forward blade gives it tremendous reach and chopping power. Choking up on the subhilt shifts the balance back for more controlled cutting, trapping, and backcutting.

Specifications:

- Blade length: 8.600"/218 mm
- Overall length: 13.500"/343 mm
- Blade material: 1085C high-carbon tool steel
- Blade finish: Black epoxy finish
- Edge type: Plain or partially serrated

BLACKHAWK!™ CQD® MARK III™ STEALTH WEAPONS CATCH

Designed by Duane Dieter for demanding law enforcement and military environments, the Stealth Weapons Catch is ultra quiet with no hook & loop or snaps. Its robust spring-steel catch guarantees years of reliable performance in the harshest conditions.

- Quiet, adjustable, and removable elastic weapon retention strap
- Carries shotguns, rifles, less-than-lethal weapons, and manual entry tools
- Includes two Speed Clips™ for S.T.R.I.K.E.® webbing attachment and two metal ALICE clips for belt mounting
- Ambidextrous design
- Fast, easy, and convenient

BLACKHAWK!™ CQD® WEAPONS CATCH – MARK I™ AND MARK II™

Created by tactical expert Duane Dieter, the CQD® Weapons Catch provides weapon security and retention while providing immediate access. Both the Mark I and II versions carry rifles, shotguns, sub-machine guns, tear gas launchers, non-lethal weapons, manual entry tools, and other special-use weapons. The CQD® Weapons Catch is used in two basic methods:

(1) Quick catch –

used for moderate physical activity or the necessity of a quick response.

(2) Retention catch –

used for intense physical activity or when total retention is necessary.

- Adjustable retaining strap for multiple weapon types
- The Mark II™ also includes a polymer hook for fast clip action and silent operation
- Ambidextrous and compact (one size fits all)
- Compatible with existing equipment systems

MARK I™

A BLACKHAWK!™ SHORT LOCKING RAIL PANELS

BLACKHAWK!'s Short Locking Rail Panel protects unused rail areas from damage while providing a gripping surface that shields the operator from weapon heat and sharp rail edges. Made of a tough, ridged polymer and using the patented Rail-Lok™ integral locking mechanism to keep them securely in place, these low-profile rail panels improve feel and weapon control. Sold in sets of two, these panels are perfect for use on those small uncovered rail areas next to mounted accessories.

- Fits most Picatinny spec rails
- Protects unused rail areas from damage
- Shields operator from sharp rail edges
- Offers superior heat management
- Stays secure with a patented integral locking mechanism
- Low-profile, aggressive grip surface for better weapon control
- Short versions cover 1.6" of rail each

71RP02BK **Black**
71RP02DK **Dark Earth**
71RP02OD **Olive Drab**

B BLACKHAWK!™ MEDIUM LOCKING RAIL PANELS

BLACKHAWK!'s Medium Locking Rail Panel protects unused rail areas from damage while providing a gripping surface that shields the operator from weapon heat and sharp rail edges. Made of a tough, ridged polymer and utilizing the patented Rail-Lok™ integral locking mechanism to keep them securely in place, these low-profile rail panels improve feel and weapon control. The medium version is perfect for 1/2 coverage on an AR-15/M4 Carbine length forend rail.

- Fits most Picatinny spec rails
- Medium Locking Rail Panel covers 3.2" of rail
- Protects unused rail areas from damage
- Shields operator from sharp rail edges
- Offers superior heat management
- Stays secure with patented integral locking mechanism
- Low-profile, aggressive grip surface for better weapon control

71RP01BK **Black**
71RP01DK **Dark Earth**
71RP01OD **Olive Drab**

C BLACKHAWK!™ LONG LOCKING RAIL PANELS

The Long Locking Rail Panel protects unused rail areas from damage while providing a gripping surface that shields the operator from weapon heat and sharp rail edges. Made of a tough, ridged polymer and utilizing the patented Rail-Lok™ integral locking mechanism to keep them securely in place, these low-profile rail panels improve feel and weapon control. The long version is perfect for the full coverage on an AR-15/M4 Carbine length forend rail.

- Fits most Picatinny spec rails
- Long Locking Rail Panel covers 6 3/8" of rail
- Protects unused rail areas from damage
- Shields operator from sharp rail edges
- Offers superior heat protection
- Stays secure with patented integral locking mechanism
- Low-profile, aggressive grip surface for better weapon control

D BLACKHAWK!™ FULL COVER RAIL COVER

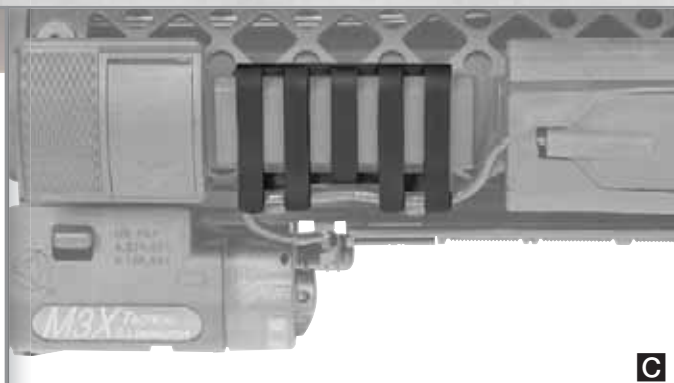

BLACKHAWK!'s Rail Cover protects unused rail areas from damage while providing a gripping surface that shields the operator from weapon heat and sharp rail edges. Made of Santoprene® and designed with a low-profile grip surface for improved weapon control, these rail covers clip anywhere on a rail without removing other attachments. They can be easily cut to size if a custom length is required.

- Fits most Picatinny spec rails
- Can be cut to size for a custom fit
- Protects unused rail areas from damage
- Shields operator from sharp rail edges and weapon heat
- Clip onto rails without removing other attachments
- Checkered texture and rubbery surface for improved weapon control

**C BLACKHAWK!™ LOW PROFILE RAIL COVER WIRE LOOM**

Safely keep electrical wires out of the way with this 5-slot cover. It uses an integral wire loom to quickly and reliably secure electrical wires commonly found on remote pressure switches. The ladder-style cover offers rail protection, with little added weight and profile, to any Picatinny-style rail. Low Profile Rail Covers are made of Santoprene® to provide a low-profile, rubbery grip surface.

**B BLACKHAWK!™ RAIL MOUNT VERTICAL GRIP**

Enjoy improved weapon control and heat management with BLACKHAWK! Rail Mount Vertical Grips. Molded of high-performance fiberglass-reinforced polymer, these vertical grips feature redundant clamp screws for secure, reliable mounting and an adjustable fit to compensate for out-of-spec rails. The grip's O-ring sealed storage compartment is ideal for tools, batteries, or spare parts while the two different caps (included) allow for custom length.

- Constructed of high-performance fiberglass-reinforced polymer
- Improves weapon control and heat management
- Redundant clamp screws for secure, reliable mounting
- Adjustable to accommodate out-of-spec rails
- O-ring sealed compartment for tools, batteries, etc.

- Two all-steel, blued LOK-DOWN™ swivels for easy attachment to BLACKHAWK!™ or most other swivel bases
- One-hand operation
- Weatherproof

73SM00BK Black

PACKS - TACTICAL

Is Your Reservoir Protected?

Microban® antimicrobial protection is built directly into each BLACKHAWK!™ reservoir, so you don't have to worry about it washing off or wearing away even after extensive use. When microbes such as bacteria, mold, and mildew come in contact with the product's surface, Microban's unique protection penetrates the microbe's cell wall and disrupts key cell functions so that the microbe can't function, grow, or reproduce.

Treated with
Microban® protection

UNTREATED

THIS INFORMATION IS BASED ON STANDARD LABORATORY TESTS AND IS PROVIDED FOR COMPARATIVE PURPOSES TO SUBSTANTIATE ANTIMICROBIAL ACTIVITY OF NON-PUBLIC HEALTH APPLICATIONS. ANTIMICROBIAL ACTION IS LIMITED TO PRODUCT SURFACE.

BLACKHAWK!™ TIDAL RAVE™

The patented Tidal Rave is an economic hydration system designed for basic outings.

- Drink system protected by Microban® antimicrobial technology
- Bite Me® bite valve and patent-pending quick-disconnect system
- Lightweight mesh shoulder harness
- Bungee retention system allows for extra clothes storage

POUCHES

MOLLE – 3700 SERIES

Mount our S.T.R.I.K.E.® pouches to any standard MOLLE (Modular Lightweight Load-carrying Equipment) platform—a system of 1" horizontal webbing. Integral straps on the back of our MOLLE-compatible pouches weave in and out of the platform webbing for secure modular attachment.

SPEED CLIPS™ – 3800 SERIES

BLACKHAWK!™ is proud to introduce the fastest, lightest, and strongest method for mounting tactical gear to S.T.R.I.K.E.® platforms. Constructed of a durable yet flexible carbon-fiber polymer blend, our innovative Speed Clips are the most versatile S.T.R.I.K.E. hardware available. We designed these clips in order to eliminate tedious weaving of bulky straps associated with more traditional means of modular attachment. Quickly

mount and disconnect gear and rearrange your kit without hesitation with our field-tested and battle-proven Speed Clips!

- Use with existing S.T.R.I.K.E.® pouches by tucking strap behind clip, cutting snap off, or removing strap entirely
- Color options match other gear
- Available in 3", 5", 7" and 9" lengths to accommodate any-size pouch
- Patent pending

USA MOLLE – 3900 SERIES

In support of the Berry Compliant requests from US Fighting Forces, we are now producing a complete line of pouches made in our Meridian, Idaho facility.

- Lightweight 500 denier Kodra® ripstop

PROTECTIVE GEAR

BLACKHAWK!

BLACKHAWK! gloves come in a variety of colors and sizes to ensure the perfect fit for any job.

Constructed with the finest materials available, our gloves are made with the heroes of the world in mind.

METHOD 1

Place right hand so index finger runs vertically along orange line on left. Measurement on the right side of your hand on the chart will be your approximate glove size.

METHOD 2

Wrap a tape measure around your knuckles or the widest part of your hand and make a loose fist. Round that measurement to the nearest inch and refer to measurement chart for approximate glove size.

MEASUREMENT CHART

7" (20.5 cm) = Small
8" (23 cm) = Medium
9" (25.5 cm) = Large
10" (28 cm) = X-Large
11" (30.5 cm) = XX-Large

BLACKHAWK!™ A.C.E. GOGGLE (ADVANCED COMBAT EYEWEAR)

General Specifications and Features:

- Includes cloth carrying case and soft case/cleaning bag (open on both ends and can be positioned over goggle for protection when worn up on helmet)
- Innovative design for comfort
- Sleek, close-fitting frame fits under helmet (ACH, MCH, PASGT)
- Flexible Santoprene™ frame
- Removable nose guard constructed of extremely durable nylon
- 35 mm non-slip, silicone-backed, elastic head strap angled upwards for even pull against face
- 180-degree peripheral vision
- Excellent wind and dust protection via foam dust filters over ventilation areas

Lens Specifications and Features:

- Exceeds ANSI Z87.1 & MCEPS standards for impact resistance
- Meets or exceeds all ANSI & EN optical clarity standards
- 3.15 mm in center and 3.0 mm thick to side for perfect optics throughout entire curvature of lens
- Lens exterior has highest quality proprietary anti-scratch treatment
- Lens interior has highest quality anti-fog treatment
- Clear or smoke tint lenses available

A Padded extensions improve comfort and performance and lessen abrasion

B Injection-molded cap for enhanced flexibility

Flex design enhances comfort and keeps cap close to padding when knee is bent

BLACKHAWK!™ STOCKS

Devoid of harsh recoil and designed to fit any sized shooter, BLACKHAWK! Stocks eliminate the punishing recoil associated with shotguns and rifles. With a phenomenal 85% reduction in perceived felt recoil, the pain of kickback is gone. Whether for SWAT, patrolling the streets or hunting wild game these stocks rock!

- **Dramatic reduction in recoil**
- **Improved shooter confidence**
- **Increased accuracy and faster follow-up shots**

SHOTGUN STOCKS

BLACKHAWK!™ KNOXX® SPECOPS STOCK GEN II™

The SpecOps Stock Gen II takes the original SpecOps Stock to an even higher level of effectiveness, performance, and reliability. Law enforcement and military personnel, hunters, and sport shooters alike will agree that this is the best BLACKHAWK! shotgun stock yet!

- Lightweight polymer and alloy construction
- Dual recoil-compensation systems reduce harsh recoil by up to 85%
- Ergonomic pistol grip with customizable, interchangeable rubber grip inserts
- 11.25" to 15" length-of-pull
- Rapid-adjust, seven-position stock to fit all shooters
- Integrated ambidextrous single-point sling plate and quick-detach sling swivel
- Unique design cuts muzzle rise and reduces target reacquisition time
- Includes matching forend

BLACKHAWK!™ KNOXX® POWERPAK SYSTEM™ (MODULAR CHEEKPIECE & AMMO CARRIER)

The innovative PowerPak System brings a new level of versatility and performance to the SpecOps Stock™. This four-piece modular system is designed for rigid and stable use in the toughest of environments.

- High cheekpiece for use with raised optics
- Low cheekpiece for use with low-rise sights
- Shell holder with five 12-gauge shells allows for rapid reloads
- Ambidextrous design
- Watertight storage compartment for spare CR123A batteries or similar-sized items
- Can be assembled for left- or right-handed shooters by snapping it onto rear portion of stock
- Designed specifically for use with all versions of the SpecOps Stock™, SpecOps Stock Gen II™, and SpecOps NRS™ Gen II

K04009-C POWERPAK SYSTEM™ – BLACK (Fits all SpecOps Stock™, SpecOps Stock Gen II™, and SpecOps NRS™ models)

K04019-C POWERPAK SYSTEM™ – NEXT G-1® CAMO PATTERN (Fits all SpecOps Stock™, SpecOps Stock Gen II™, and SpecOps NRS™ Gen II models)

BLACKHAWK!™ KNOXX® TALON THUMBHOLE STOCK

The Talon Thumbhole shotgun stock is the engineered fusion of the patented Knox recoil-reducing technology, the ergonomic control of a pistol grip, and the time-tested elements of a traditional stock. This stock sports dual recoil-compensation systems that reduce felt recoil by up to 65%, making even the heaviest shotgun loads easy for all shooters to handle! Durable, reliable, and built to last, the Talon Thumbhole will help improve accuracy, target reacquisition times, and firearm control while dramatically reducing recoil anticipation and flinching.

- Durable polymer and alloy construction
- 13.75" length-of-pull
- Ambidextrous design
- Ergonomic pistol grip for steady firearm control
- Traditional comb design for comfort and consistent target acquisition
- Unique design cuts muzzle rise for faster target reacquisition
- Eliminates shoulder fatigue and related recoil injuries
- Interchangeable rubber grips for customization

Interchangeable rubber grips

K06100-C Remington® 870 12 Gauge – All Varieties

BLACKHAWK!™ KNOXX® BREACHERSGRIP™ RECOIL-REDUCING PISTOL GRIP

The BreachersGrip Recoil-Reducing Pistol Grip significantly reduces recoil and is perfect for one-handed operation in close-quarter combat or home defense. This shotgun pistol grip cuts recoil by over 65% and makes firing breaching rounds or heavy-hitting shotgun loads virtually painless. Attach a sling, and your shotgun is ready when you need it or out of the way when you don't.

- Single recoil-compensation system reduces felt recoil by up to 65%
- Can be fired one-handed or comfortably at awkward angles
- Compact design for easy storage and close-quarter operation
- Integrated single-point sling attachment loop
- Ergonomic pistol grip with integrated non-slip texturing

BLACKHAWK!™ KNOXX® SPECOPS FOLDER™

The sleek SpecOps Folder takes the pain out of shooting magnum buckshot and slug loads even when the stock is folded. A sturdy, rubber-coated, folding wire-frame stock with integral rubber buttpad collapses easily over the receiver for convenient storage and mobility in tight spaces such as vehicles, motorcycles, hallways, and entryways. Shooters testing the SpecOps Folder with magnum buckshot loads found that there is virtually no muzzle rise and that recoil was significantly reduced in both the open and folded positions.

- Durable polymer and alloy construction
- Single recoil-compensation system reduces felt recoil by up to 50%
- Quick and easy single-bolt installation
- Simple, quick-to-operate folding mechanism
- Ergonomic pistol grip with integrated non-slip texturing

BLACKHAWK!™ KNOXX® COMPSTOCK™

Combining modern technology with traditional design, the shotgun CompStock has been received with enthusiasm by sportsmen, competitive shooters, and law enforcement officials for its ability to reduce recoil with both light and heavy loads. Law enforcement officers, who are required to qualify with a shotgun, will find that the CompStock is the secret to higher scores and better field results. Hunters and competitive shooters will find their hit ratios and scores improving as flinching and recoil anticipation dramatically decrease.

The CompStock™ is the ideal choice for those seeking a recoil-reducing stock in a traditional design. Packaged with a composite forend, the CompStock™ is the perfect solution to the problem of recoil.

- Single recoil-compensation system reduces felt recoil by more than 54%
- Eliminates muzzle rise for ultimate shooting comfort
- No adjustment or tuning required
- Easy installation
- Includes matching composite forend
- Comfortable all-weather grip

BLACKHAWK!™ KNOXX®

AXIOM™ ULTRA-LIGHT RIFLE STOCK

For pain-free accuracy, the Axiom Ultra-Light Rifle Stock combines the benefits of dual recoil-compensation systems with the lightweight resilience of a fiberglass-reinforced forestock. Weighing in at only 2 lbs. 9 oz., this stock delivers remarkable comfort while shooting bolt-action rifles and draws out your rifle's full accuracy potential without the punishing recoil found with most larger calibers.

- Dual recoil-compensation systems deliver maximum recoil reduction
- Rugged, fiberglass-reinforced polymer construction with aluminum pillar bedding
- 11.25" to 15.25" length-of-pull
- Completely free-floated barrel channel fits all barrel diameters

BLACKHAWK!™ KNOXX® AXIOM™ TH THUMBHOLE RIFLE STOCK

Combining the revolutionary Knoxx recoil-reducing technology with the desirable design features of a thumbhole stock, the Axiom TH Thumbhole Rifle Stock reduces felt recoil by up to 85% for improved accuracy, quicker target acquisition, and steady firearm control. Whether it's hard-hitting big-game ammunition or shoulder-pounding magnum loads, this stock lets you comfortably use rifles in a variety of shooting positions and makes all rifle calibers easy for any shooter to handle.

- Dual recoil-compensation systems eliminate harsh recoil with all rifle loads
- Durable polymer and alloy construction for years of rugged use
- Precision receiver fit with aluminum pillars for added stability and strength
- Interchangeable rubber grips for user customization
- 13.75" length-of-pull
- Unique design cuts muzzle rise for faster target reacquisition
- Traditional comb design delivers comfort and consistent target acquisition
- Ergonomic pistol grip with integrated non-slip texturing
- Convenient rear storage compartment (14 cubic inches)
- Compatible with bipods (not included)
- Completely free-floated barrel channel fits all barrel diameters
- Ambidextrous design

BLACKHAWK!™ KNOXX® RIFLE COMPSTOCK™

The high-performance Rifle CompStock offers maximum recoil reduction for larger caliber bolt-action rifles and is ideal for field or range use. This traditional stock removes the pain of punishing recoil and restores the joy of shooting larger caliber rifles. The Rifle CompStock is perfect for experienced and novice shooters alike. This rubber over-molded synthetic stock (built by Hogue®) is available in Pillar Bed versions to fit most Remington®, Winchester®, Ruger®, and Mauser® bolt-action rifles.

- Single recoil-compensation system reduces felt recoil by up to 75%
- Recoil system is effective with all calibers and requires no adjustment
- Simple drop-in installation makes upgrading quick and easy
- Eliminates the need for ear-shattering muzzle brakes
